

TURN EVERYDAY WORK INTO SUPERIOR PERFORMANCE

FIELD EXECUTION

Imagine a single source of truth that's accessible by your entire team, whether they're in the field or office.

As the complexity of projects continues to grow, stand-alone systems and lack of integration often lead to needless repetition, re-work and project inconsistencies. You need to be able to clearly communicate work and project scope, deliver daily work plans, and ensure operational efficiency and compliance.

InEight helps you master field execution with InEight® Plan, InEight Progress and InEight Inspect. With these solutions, you can plan and execute work seamlessly between the office and field, enabling you to meet deadlines, increase collaboration and find business efficiencies based on real-time data and productivity. Operational information is consolidated into a single source of truth that is accessible to your entire team, leading to smooth and efficient work execution.

Meet the needs of any project

InEight's field execution solutions provide the seamless, real-time connectivity you need for the office and field. With mobile capabilities, you can achieve unparalleled project efficiencies.

Plans Revised Tuesday Plan SEP 11, 2017

Overview Time Sheet Quantities Notes Productivity

Planned Tasks		Quantity		Time		Budget		Notes
Task ID	Description	Planned	UOM	Planned	Plan O/L			
1033	Temp Construction...	0	Acre	6	-6.0			Safety concern
1049	Unload/Sort Frames	0.5	Acre	12	-11.5			Slips, trips, falls
1053	Unload/Sort Specialt...	0.5	Acre	6	-5.5			
Totals				24	-23.0			

Planner Notes

Unload 7 trailers on the east side of the laydown
Install temp construction barrier along 24th St

Cancel Inspection

Behavioral Observation Template

9 - HOUSEKEEPING & ENVIRONMENTAL PROTECTION

Traffic Areas Clear of Obstacles

Waste Disposal

Spill Containment / Contamination Protection

10 - OTHER

Additional Comments / Safety Observations

Worker prepping weld seam missing guard on grinder and unclean area.

Submit Inspection and Continue

InEight[®] PLAN

Simplifies the process of planning and packaging work, along with the required resources such as labor, equipment and materials.

- Create crystal clear work plans that communicate tasks, required resources and expected outcomes
- Publish plans instantly to assigned field personnel for execution using mobile devices
- Avoid project surprises and re-work with clearly documented tasks, goals, risks and mitigation action items

InEight[®] PROGRESS

Provides a mobile solution you can use to create and receive daily work plans, communicate plans to your crew, and capture results at the end of the shift.

- React quickly to changing site conditions and resource availability by creating daily plans on the fly
- Collect critical shift-end information for each task, including quantities completed, hours by employee and equipment, and allowances
- Capture photos and notes to identify key events affecting the work, creating a historical job site record

InEight[®] INSPECT

Increases operational efficiency and drives compliance by creating a consistent process for field inspections related to safety, quality, environmental, regulatory compliance and more.

- Synchronize completed inspections from the field to the home office for real-time visibility
- Act swiftly by easily spotting inspections containing exceptions
- Send notifications to appropriate personnel to ensure awareness of critical issues

InEight builds construction project management software that enables you to overcome your greatest project challenges. Our solutions span the entire project life cycle from design to estimate and from field execution to turnover and asset management. They provide the real-time information and insights you need to minimize risks, improve operational efficiency, control project costs, make educated decisions, and collaborate easily with all project stakeholders.

InEight solutions make it easy to build project confidence.
