

TURN DATA INTO INSIGHTS

WITH CONNECTED ANALYTICS SOLUTIONS FROM INEIGHT

MAKE BETTER DECISIONS, FASTER

Quickly consume project information, identify issues, make better informed decisions, avoid surprises and analyze lessons learned.

YOUR INFORMATION, YOUR WAY

Conduct deep, interactive analysis across your entire project with pre-configured dashboards, custom visualizations, and connections with external reporting tools and enterprise data sets.

SIMPLIFIED DATA SHARING WITH INDUSTRY-LEADING DASHBOARDS.

Avoid financial and operational surprises with visibility into industry metrics, KPIs and trends with access to reports and dashboards to ensure accurate real-time decisions.

QUICKLY GATHER DATA FROM ACTIVE PROJECTS AND GENERATE THE REPORTS, KPIs AND DASHBOARDS NEEDED TO IDENTIFY ISSUES EARLIER, MAKE BETTER INFORMED DECISIONS AND AVOID SURPRISES.

- Access ready-to-go reports using common industry performance metrics and KPIs to measure project productivity during every phase of construction.
- Manage risk with real-time visibility into the profitability of every project by using your preferred forecast comparisons against the current estimate or budget.
- Be confident in your decisions by leveraging analytical reporting for every stage of the project life cycle.
- Access all your reports in one place.
- Export and print your reports into multiple formats.
- Create report subscriptions to automate timely report distribution.

DEEP INTERACTIVE ANALYSIS OF INFORMATION ACROSS YOUR ENTIRE PROJECT.

- Take your project data anywhere by easily exporting it into business intelligence (BI) or reporting tools.
- Get your information, your way, through customized dashboards.
- Blend vast amounts of data by combining data from InEight solutions with other sources for broader exploration and analytics.

ineight.com

InEight builds project management software that enables you to overcome your greatest challenges on capital projects. Our solutions span the entire project life cycle from design to estimate and from field execution to turnover and asset management. They provide the real-time information and insights you need to minimize risks, improve operational efficiency, control project costs, make educated decisions and collaborate easily with all project stakeholders.
