

CONTINUOUSLY IMPROVE JOB SITE PRODUCTIVITY

WITH FIELD EXECUTION MANAGEMENT SOLUTIONS FROM INEIGHT

SIMPLIFY THE WORK PLANNING PROCESS

Streamline work package and daily execution plan development to efficiently organize, communicate and report on work.

CRYSTAL-CLEAR COMMUNICATION

Boost efficiency with a mobile solution for creating and receiving daily work plans, sharing information and capturing results.

REDUCE JOB SITE RISKS

Confidently meet established safety, quality and environmental requirements, and resolve issues in a timely manner.

TRACK PROGRESS IN REAL TIME

Quickly capture installed quantities and claimed hours in the field, reducing processing time and entry errors.

MASTER JOB SITE PERFORMANCE.

Plan, execute and collect progress on projects seamlessly. Our solutions reduce the time you spend planning work and tracking results.

SEAMLESSLY PLAN AND EXECUTE WORK TO HELP YOU MEET DEADLINES, INCREASE COLLABORATION AND FIND BUSINESS EFFICIENCIES.

- Simplify the planning process by bringing together multiple sources of planning information into a single executable and easy-to-understand plan.
- Expand work breakdown structures to any level of detail that most clearly quantifies the scope of work.
- Claim progress at the right level of detail, including complex rules of credit, to know precisely how much of your project is completed at any point in time.
- Leverage Earned Value Management techniques to produce accurate forecasts of project performance and identify areas for improvement in real time.

OPEN THE LINES OF COMMUNICATION BETWEEN THE OFFICE AND FIELD WITH A MOBILE DAILY PLANNING TOOL THAT ALSO CAPTURES TIME AND QUANTITIES.

- Simplify and streamline the daily planning process by specifying the employees and equipment to be used by a crew during a shift, the work to be performed, and the quantities installed during a given shift.
- Use a mobile device to log hours for employees and equipment and installed quantities to update completion status and calculate crew productivity.
- Add notes, photographs and other event documentation to daily reports from a mobile device, quickly adding a new level of detail.

CONFIDENTLY MEET ESTABLISHED SAFETY, QUALITY AND ENVIRONMENTAL REQUIREMENTS WITH THE ABILITY TO INVESTIGATE, ANALYZE AND RESOLVE ISSUES IN A TIMELY MANNER.

- Use standard modules for safety, quality and punchlists, or customize your own to capture and track exactly the information you require at every stage of the work.
- Build mobile-ready forms to simplify and standardize field data collection.
- Keep your project team ahead of issues with automated reminders for scheduled tasks and inspections.

ineight.com

InEight builds project management software that enables you to overcome your greatest challenges on capital projects. Our solutions span the entire project life cycle from design to estimate and from field execution to turnover and asset management. They provide the real-time information and insights you need to minimize risks, improve operational efficiency, control project costs, make educated decisions and collaborate easily with all project stakeholders.
